Title: SYSTEM, METHOD AND ARTICLE OF MANUFACTURE FOR MANAGING A MEDICAL SERVICES NETWORK

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

RECEIVED

OCT 29 2003

GROUP 3600

RESPONSE TO RESTRICTION REQUIREMENT UNDER 35 U.S.C. § 121

Dear Sir:

On September 22, 2003, a Requirement for Restriction under 35 U.S.C. § 121 was issued by the U.S. Patent and Trademark Office in connection with the above-identified application. A response is due by October 22, 2003. Accordingly this response is timely filed.

Requirement For Restriction Under 35 U.S.C. § 121

In the restriction issued September 22, 2003, the pending claims were alleged to describe the following independent and district inventions:

- I. Claims 1-63, drawn to a method for managing network medical services, classified in class 705, subclass 2-4; and
- II. Claims 64-90 drawn to a computer based patient medical record system, classified

in class 345, subclass 156, 619, 650, 676, 808, 862.

The Office alleged that the inventions are distinct, each from the other because of the following reasons. Inventions I and II are related as sub-combinations disclosed as usable together in a single combination. The sub-combinations are distinct from each other if they are shown to be separately usable. In the instant case, the Office alleged that Group I has a separate utility such as a medical services network for receiving, transmitting and interpreting diagnostic data. Invention II has separate utility such as manipulating user's image files.

The Office alleged that because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and because the search required for Groups I and II are not coextensive, restriction for examination purposes as indicated is proper.

Election of Group II, Claims 64 to 90

Applicant's undersigned attorney, on behalf of Applicant, elects Group II, claims 64-90, with traverse. Applicant expressly reserves his right under 35 U.S.C. § 121 to file one or more divisional applications directed to the nonelected subject matter during the pendency of this application, or an application claiming the benefit of this application under 35 U.S.C. § 120.

Applicant traverses the requirement for restriction and requests the Office to reconsider and withdraw the restriction requirement between the inventions of Groups I-II, claims 1-90. There are two criteria for a proper requirement for restriction, namely, (1) the inventions must be independent or distinct, and (2) there must be a serious burden on the Examiner if restriction is not required. Under M.P.E.P. § 808, the Examiner must examine the subject application on the merits even though it includes claims to distinct inventions, if the search and examination of the application can be made without serious burden.

Applicant notes that it would not be a serious burden on the Examiner to search the inventions of Groups I and II together as each invention requires the use of the process of a data collection system. The use of a data collection system also provides the relationship between Groups I and II.

Accordingly, in view of the preceding discussion, Applicant respectfully asserts that two or more independent and distinct inventions have not been claimed in the subject application

between the inventions of Groups I and II. Therefore, restriction is not proper under 35 U.S.C. § 121 and withdrawal of this restriction is respectfully requested.

CONCLUSION

No additional fee is deemed necessary in connection with the filing of this Response. However, if the Patent Office determines that an extension and/or other relief is required, Applicant petitions for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 50-2518**, referencing billing number **2023953-7009802001**. However, the Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

Should a telephone advance prosecution of the subject application, the Examiner is invited to contact the undersigned at (650) 849-4950.

DATE: Oct. 22, 2003
